Dear Supporting Churches,

March 2015

March Madness is here again! That means anything extraordinary can happen in college basketball. Not only can big things happen in sports, but extraordinary things can happen in the Lord's work as well (and not just in March).

This past Sunday, three people made professions of faith during the service. The Sunday before that three adults and one young girl got saved and two baptized. God is adding to the church such as should be saved.

The roads on the seminary property are completed and only one more retaining wall needs to be built. We are also about two weeks away from finishing up our seminary building. I will be glad to slow down the pace of construction.

Although the case with the two rogue seminary students suing our ministry is still going on, we are glad to see how strong The Lord is working. Keep praying for God's will to be done.

## Prayer Requests
